

FAQ

PRICING, DISCOUNTS & REFUNDS

How much does painting pottery cost?

Our prices are all-inclusive, so everything is covered in the price of the pottery you choose—studio time, paints, accessories and firing. Prices range from \$10 to \$120 per piece. Just pick the piece that suits you best and you're all set!

Do you offer special discounts or events?

Absolutely! We host special events and holiday-themed activities often, and they frequently include pottery discounts. Check out our calendar (on our website) or contact us for details on upcoming events and promotions!

Can I use multiple discounts?

Only one discount can be applied per sale. We will, however, ensure that the maximum discount is applied if you have multiple available.

Do you have a loyalty program?

We do! Each time you checkout, you must enter your phone number into the checkout system and your points will be tracked electronically. For every \$20 you spend during your visit, you will earn one point. Once you earn 10 points, you will receive \$30 off any pottery.

My pottery was broken when I got home. Can I get a replacement, return or refund?

Unfortunately, we cannot accept returns, replacements or refunds once the pottery has left our studio. When you pick up your piece, we'll ask you to inspect it and confirm that it's correct and undamaged before you take it home.
